BEGINNING LEVEL

Beginning Course, 10 weeks—This is a hands-on course providing a thorough philosophical and practical grounding in astrological fundamentals. Both beginners and those with some knowledge of astrology have found this course both helpful and fun!

ADVANCED-BEGINNING LEVEL

Chart Interpretation Course, 8 weeks—In this course, students already familiar with the basic building blocks of a chart receive hands-on practice in chart interpretation. For learning purposes, we focus on three fundamental themes: parent-child issues, relationships, and vocation/career/finances. With coaching from me and practice on each other's charts, students gain a greater level of expertise and confidence in their chart interpretation abilities. We also discuss ethics and pointers for improving one's consulting skills.

Planets Course, number of weeks TBD—Make an in-depth acquaintance of each of the planets. We'll discuss each planet in the signs and houses and aspecting other planets. Prerequisite: knowledge of astrological basics. This course builds on the material from the beginning course.

INTERMEDIATE AND ADVANCED LEVELS

Relationship Astrology, 4 weeks—Learn how to (1) compare two people's charts in order to understand the potentials and possible challenges in their relating with one another (synastry) and (2) analyze the relationship's midpoint composite chart to better understand the characteristics of the relationship and how it functions in its environment. Prerequisite: a working understanding of astrology.

The Astrology of Health, 6 weeks—An introduction to the vast field of health astrology. Prerequisite: a working understanding of astrology. Please note: Astrologers do not diagnose. Emphasis is placed on identifying general potentially health-challenging patterns and suggesting proactive strategies to strengthen the constitution.

The Transneptunian Planets, 4 weeks—An in-depth look at the eight Transneptunian planets of Uranian astrology—Cupido, Hades, Zeus, Kronos, Apollon, Admetos, Vulcanus, and Poseidon—and how they can add tremendous depth and insight to charts. Prerequisite: a working understanding of astrology.

Locational Astrology, 6 weeks—Learn the basics of various forms of locational astrology, including relocated charts, astrolocality maps, parans, geodetics, and local space lines and houses. Prerequisite: a working understanding of astrology. Please note: I use the Transneptunian planets in astrolocality work. If you are unfamiliar with them, I will brief you on them.
